

DEPT. OF CONSERVATIVE DENTISTRY AND ENDODONTICS

Report on Dr G V Black Week 2015

As a part of Commemoration of Dr. G V Black's commendable contributions in the field of Operative Dentistry, KLE VK IDS has been observing Dr. GV Black week every year since 2011.

As like every yester year, this year also saw an overwhelming and enthusiastic participation from both the staff and students in various activities which were a part of the program

The week started with a formal inauguration on 11- sep-2015 by Principal Dr. Alka Kale. The other dignitaries included the Head of the Departments, faculty members of various specialties and a total of about 120 students including undergraduate and post graduate students.

The inauguration was followed by various lectures/interactive sessions by the highly experienced and knowledgeable faculty of the Dept. Conservative Dentistry and Endodontics intended for students of various academic years. The schedule was as follows:

- **"Fibre Post"**- Dr. Neha Dhaded (IV yr)
- **"Myths In Endodontics"** – Dr. Sonal Joshi (Interns)
- **" Caries Prevention "**- Dr. SnehaPatil (II yr)
- **"Diagnostic Aids in Clinical Practice"** – Dr. SunitaShivanand (III yr)
- **" Surgical Endodontics"** – Dr. AnandPatil (PG)

It was important to note that from this year onwards the programs under the cover of Dr GV Black Week included activities for Post Graduate students also. As a part of this notion, **a Hands-On session on various Surgical Flaps and Suturing techniques** for the PG students was conducted by Dr. AnandPatil.

Dept. Of Conservative Dentistry And Endodontics

Report on Guest Lecture by Dr.UmeshPai

Dept. Of Conservative Dentistry And Endodontics had organized a guest lecture on 10 Sep 2015 by Ace Prosthodontist **Dr. UmeshPai** who has been an alumni of KLE VKIDS during his Graduation and Post Graduation years.

It was organized in collaboration with ColteneWhaledent Bangalore.

The lecture was on the topic “ **Predictability of Treatment Outcome by Fixed Partial Dentures**”

The various aspects discussed are as follows:

- **Retraction and Gingival Tissue management- Key to Successful Impressions**
- **Impressions- 1 step v/s 2 step technique- What to choose?**
- **Chair-side Provisionalisation - Predictable and Esthetic Temporaries**
- **Bite registration**

It was a very interactive and highly informative talk. About 110 members attended the lecture including the faculty and students of all academic years.

The after session comprised of **Hands-On Session** by Dr .UmeshPai for all post graduate students which included the following activities:

- **Methods of Gingival Retraction- Systems using Retraction Cord and Cordless systems**
- **Manipulation of Elastomeric materials- Impression making**
- **Provisionalisation of Fixed Partial Dentures**
