Prof. P G Naveen
Kumar

Public Health Dentistry, Faculty of
Dental Sciences, Banaras Hindu
University, Varanasi 221005, UP

When I finished my graduation and joined KLE, I was overwhelmed by the infrastructure, knowledge of teachers and their dedication towards dentistry. Unique thing about the campus is all the facilities like faculties of Modern Medicine, Pharmacy, Dental, Nursing, BPT, Huge Multispecialty Hospital and all the respective hostels under one roof, which makes interdisciplinary learning, research more accessible and feasible.

Regarding Dept of Public Health Dentistry, it is one of the few departments in the country where holistic approach for counseling and treatment of the patients is followed. Post graduates are given free hand to deal with patients under active supervision.

“Reach the unreached” motto is justified by the presence of chain of satellite centers in and around areas of Belgaum both rural and urban and presence of well equipped Mobile Dental Unit for outreach activities. Tobacco cessation is always given a special emphasis.

I am forever indebted to KLE management and my Teachers.

Dr.Rathin Das

Dr.Rathin Das

I remember when I was entering my first year of M.D.S., I was extremely excited but at the same time extremely nervous. Reflecting back on the whole experience now, I would encourage incoming students to recognize that like anything in life, you'll face both ups and downs throughout your M.D.S. experience. The important thing to remember is to always try your best and not let the instances where you may have fallen short hold you back from continuing to work hard and reach your full potential. Speaking more specifically about KLE, it is a massively rich campus with both great people and amazing opportunities. Take these next few years to really make the most of it. M.D.S. is a time where we will learn a lot about our self and others. Put yourself out there, meet people, network, gain experience and grow your soft skills. K.L.E. gives a huge opportunity to interact with staff & students of the department and among departments. This will help you pick a career path and allow you to market yourself better to get the job that you want post M.D.S.. I picked up analytical skills, critical thinking skills, communication skills, writing skills, and Clinical skills during my years of M.D.S.. I did a lot of readings and took advantage of the library reserves, K.L.E. has a huge collection. I came out of these three years looking and feeling my best. Good luck to all and have fun!

Dr.Rahul

(KENZ DENTAL, MUSCAT), Post
Graduate Batch-2009

Dr.Rahul

. Department of Prosthodontics, KLE VK institute of dental sciences, Belagavi is well known for its contemporary design with modern dental units, with a well equipped implant clinic along with latest casting and ceramic units.

The department is endowed with a dedicated and experienced staff, all of whom are committed with education, knowledge, patient care and research.

Department is really well organized and does quality dental treatment procedures ensures a regular flow of patients. It also arranges extracurricular programmes, various workshops, etc so students don't always be involved in studies but also enjoy studying.

Alumni testimonials

I received an education that was second to none. The support from the faculty and clinical staff during my tenure was exceptional. The academic and clinical skills I gained have enabled me to take great pride and joy in my daily work and opened many doors for me. I have developed a successful career path that owes much to my education at KLE VKIDS.. I am currently the Principal and Head of the Department, Orthodontics at Sinhgad Dental College and Hospital Pune, and everything I do today is because of the strong foundation laid down for me at KLEVK IDS.

Dr. Sameer Patil, (1994 Batch)

I feel that, on the whole, my education at KLE VKIDS prepared me well for my transition to a successful career. Today I am a well established private practitioner with my own Orthodontic lab, and a lingual and aligner specialist. I wouldn't trade my experience at KLE VKIDS for anything. I miss my post-graduation days at KLE, and I would suggest anyone to join for setting them on the right path in life.

Dr. Pravin Shetty, (1999 Batch)

The KLE VKIDS Department of Orthodontics is a clinically strong Post graduate. The faculty are knowledgeable. They come from diverse backgrounds, which allows the students to be exposed to a wide range of skills and various treatment modalities with no boundaries. One can expect to graduate feeling confident and ready to join a fast pace, high patient load practice following graduation from this institute.

Dr. Bhushan Jawale, (2002 Batch)

I have always heard about KLE VKIDS, Belgaum for being one of the finest choices for pursuing postgraduation in Orthodontics and Dentofacial Orthopaedics. The field of orthodontics has a wide range of aspects, and here in KLE you are assured of experiencing all of it. The faculty is always there to guide you at every step and to encourage and support you throughout the course and after. The number of different treatment modalities offered here teaches you well about the basics as well as keeps up with the most recent advances. The department through their various academic and research activities also helps in developing presentation and soft skills which has been helpful in other aspects also. The department promotes following 'buddy system' which teaches you team work and efficiency. I would definitely recommend pursuing MDS Orthodontics in this college for a fruitful learning experience under one of the best faculty and good infrastructure.

Dr. Shreya Sarkar, (2017 Batch)

DR.NANDINI N.K.

MDS PERIO-1991-1993

- I am fortunate and lucky to be part of KLE institute of dental sciences, Belgaum, one of the premier institutions in the country with state of art infrastructural facilities in college, library, hostels, recreation and many more. I was trained by very eminent and dedicated teaching faculty who encouraged me to carry out many research activities with critical thinking and constructive criticism which has made me grow with confidence to face challenges in patient management. As a student, I have gained practical skills, communication skills, compassion towards patient care .this tradition i am passing on to my students. I acknowledge my teachers Dr.R.P.Nayak,Dr.Meenaxisood, Dr.Ranjanamohan, Dr.Aarathinayak for their selfless teaching, special mention to Dr.Alka kale ma'am for ever being friendly and supportive and to all my colleagues for sharing knowledge.

Dr. Maj Amit Parashar

MDS (Periodontology), FAGE, FPFA, FIBFO

Graded Specialist

(PG Batch: 2010-2013)

- It's a privilege to write this testimonial for the college which is almost a second home for me. KLE's VKIDS is a premier dental college in the country imparting high-quality dental education since more than 35 years, not only to the students from across India but also from abroad. The college is known for its highly experienced, committed & caring faculty, eco-friendly campus, excellent infrastructure with all the modern equipments for teaching & training as well as patient care. The students here also get ample opportunities to learn the fine arts of dentistry, communication skills, ethics, professionalism, and scientific writing. The college not only serves as an excellent patient care facility but also for teaching & training of dental students with ample clinical workload, hands-on learning, simulation-based training, etc.
